Project: Mildly, Moderately and Intellectually impaired students from the classes of Asheley Bell and Jessica Aycock at West Forsyth High School prepared and gave their presentations on “Expressing My Passions” a program sponsored by the Sawnee Cumming Optimist Club. Through the help of their teachers, parents and friends, the students were able to present what they loved to do best. Each of them had a very impressive storyboard of pictures plus displays of medals, trophies and other interesting items.

Results: All the students were awarded a medal and certificate from the Sawnee Cumming Optimist Club for their involvement in this program. The teachers and para-pros received plaques and certificates respectively. The members of the Optimist Club were very well pleased with how this program was conducted and commented on how much they enjoyed it. Only thru this program were they able to express there passions, like everyone else. This is truly a unique program presented by the Club!
